

PARROT MKi9100

PARROT MKI-9100 Specifications

Model PARROT MKI-9100

Notes The Parrot MKi9100 is a Bluetooth hands-free system with an OLED screen. A wireless remote control can be positioned on the steering wheel or dashboard and allows the driver to control all the functions of the MKi9100.

In addition to conventional telephony functions - pick up, hang up, dual calls - the Parrot MKi9100 boasts cutting-edge telephony functions: automatic phonebook synchronisation, training-free multi-speaker voice recognition, speech synthesis of the names in the phonebook, contact management (up to 2 000 per phone) and call records. Its OLED screen displays the phonebook, caller ID, phone information and user settings. The menus and phonebook are also audible for easier, more intuitive use.

The Parrot MKi9100 is also gifted for music. Supplied with a specific cable, it is compatible with all music sources, such as iPods, iPhones, USB flash drives, Bluetooth stereo (A2DP) phones, MP3 players and any other analogue players. For ideal music navigation, the screen of the MKi9100 displays the playlist along with the name of the artist and the title (iPod/iPhone connection or USB).

Music is delivered through all the car's speakers*, giving the driver and passengers exceptional sound quality and the breathtaking (Virtual Super Bass...).
